Subject: New Dicamba Labeling Question
Attachments: 2019 Xtendimax EPA Label.pdf; 2019 EPA Fexapan Label.pdf

Hi Reuben,

In reviewing and comparing the newly stamp-approved dicamba labels for Engenia, Fexapan and Xtendimax I noticed that only the Engenia label has language about the 57 foot omnidirectional buffer for endangered species. The Fexapan and Xtendimax labels mention nothing of this requirement. The labels I'm reviewing are attached for your reference. Just wondering if I'm missing something or maybe the companies have submitted labels that are not yet on PPLS. Can you please advise?

Thank you.

Regards,

Brian
